

AskMayoExpert Quick Reference Guide for Physicians

What is It?

- An online resource that delivers Mayo Clinic-vetted medical knowledge, answers to common clinical questions and need-to-know key facts all at the point of care. AskMayoExpert (AME) is available to Mayo Clinic Care Network physicians.

Who Can Use It?

- AskMayoExpert is available to all providers. This is a great reference tool for our PCPs and will assist them in determining whether patients need to be referred to a specialist.

Accessing AME

- Users can access AME via the following methods:
 - Click the Mayo Clinic Care Network link on stlukesmedstaff.com or the Physician tab on the Intranet, then click the AME link.
 - Visit www.mayoclinic.org if accessing off-site; click “For Medical Professionals” then choose “Online Services for Referring Physicians.” Log in using your username and personalized password (these will be provided).
 - Go the Apple App Store and download the Mayo Clinic Care Network Provider app onto your iPhone and/or iPad. Open the Provider app and log in using your username and personalized password (to be provided). An Android app is also available.

Using AME

- Research the clinical topic of your choice.
 - Filter results using the box on the left hand side of the screen.
 - Click the link of the item you want to view.
 - Findings presented in tabbed view with Care Process Models, FAQs, Guidelines & Resources, and Quality Measures. Not all topics contain all tabs.
