APPEALS PROCEDURE FOR THE RESIDENT

The "Appeals Procedure for the Resident" defines the proper procedure for handling any questions or concerns that may arise during the training period.

I. Adjudication of Resident Complaints and Grievances.

- A. **Program Director.** All questions, concerns, or problems related to the work environment or issues related to the program and faculty should first be directed to the program director or designee. The program director will be able to address most questions, concerns, problems or issues.
- B. **Administrative Review.** Matters, which cannot be satisfactorily answered by the program director or designee, should be directed to the Director of Medical Education / Designated Institutional Official (DME/DIO) for an administrative interpretation.
- C. **Written Request for Review.** If the resident is dissatisfied with the initial response, a written request may be made to the DME/DIO requesting further review. The DME/DIO or designee will then investigate the matter and/or convene an Ad Hoc Subcommittee of the GMCC to review and make a recommendation regarding the matter. Upon completion of the review, the DME/DIO or designee will provide a written response to the resident.
