**FIRE SAFETY**

**WHAT YOU SHOULD KNOW**

Every day at least one child dies in a home fire. And every day, 293 children are injured by fire and burns.

Home fires account for nearly 90 percent of all fire-related fatalities.

Working smoke alarms reduce the chance of dying in a home fire by half.

77% of families have not developed and practiced a home fire escape plan, one of the most important components to surviving a home fire.

Fire can spread rapidly through a home, leaving a family as little as two minutes to escape safely once the alarm sounds.

HAVE WORKING SMOKE ALARMS. PRACTICE AN ESCAPE PLAN.
