

**BLANK PEDIATRIC THERAPY DISCHARGE POLICY**

Depending on the goals of therapy, the length of treatment may be short term or long term. Our goal is for your child to be discharged at their highest functional level. There are a variety of reasons that therapy may be discontinued. As we work to achieve the best outcome for your child, open communication will serve as the foundation of our family-therapist relationship and help therapy be as successful as possible.

**REASONS FOR DISCHARGE FROM THERAPY SERVICES may include:**

- Treatment goals are met within the agreed time period.
- Insufficient progress has been made in therapy as demonstrated by lack of progress toward goals.
- Current behavior interrupts the ability to do productive therapy.
- Not attending the **minimum of 75% of scheduled therapy sessions** in a 3 month period.
- **Two (2)** “no-show” sessions are recorded within a 3 month period.
- Not an optimal point in time for your family and/or child to address targeted area(s) of need.
- At this time family is unable to comply with therapy responsibilities (bringing equipment, follow through on home programming, etc.) as outlined in family responsibilities.

Your child’s physician will be notified at the time of discharge. Thank you for helping us make your child’s progress the best that it can be. Blank Pediatric Therapy looks forward to working with you and your child!

**We will work together to achieve the best outcomes for your child.  
I have read and agree to the responsibilities as written above.**
