

# January Volunteer Spotlight

## Student

### Anna Burnette

5 Months

#### What are the benefits to you of volunteering at St. Luke's?

There are several benefits: I get familiar with the medical setting, with the way the hospital works, I can volunteer when I can which is very convenient since I have a very busy schedule. It gives me a chance to be useful & contribute to the community.

#### Why do you choose to volunteer at St. Luke's?

It is very difficult to find a hospital these days that gets new volunteers in. I was very lucky I found St. Luke's!

#### What do you find most rewarding about your volunteer assignment?

The best reward is to feel useful, to hear people thanking you for help and see their eyes.

#### What are your future plans after graduation?

I hope I will be accepted into the Rad Tech program and of course I would start working after graduation immediately since I am too old to waste time!

**Volunteer Area:**

**Wayfinder**

**Lifetime Hours: 73**

**“Anna has really shown dedication to UnityPoint. She’s put a lot of time and energy into volunteering. We really appreciate her!”**

**~Janessa Weightman  
Volunteer Coordinator**

\*Our Volunteer Spotlights are randomly chosen. All you have to do is volunteer in the previous month, and your name could be randomly selected!
