

# February Volunteer Spotlight

## Student

### Noah Martin

5 Months

#### Why do you choose to volunteer at St. Luke's?

I volunteer at St. Luke's because I am passionate about giving my time to help others and St. Luke's provides an opportunity to volunteer in a healthcare setting before I become a healthcare professional.

#### What do you find most rewarding about your volunteer assignment?

I find that the time I spend helping patients with their physical & occupational therapy exercises is the most rewarding. It has allowed me to see the passion the therapists have for helping their patients & has made me excited to have a career in occupational therapy in the future.

#### How has volunteering changed your opinion of healthcare or St. Luke's?

Volunteering at a hospital has shown me that they require a combination of professions to operate effectively & efficiently, including volunteers.

#### What are your future plans after graduation?

After my graduation from the University of Iowa this May are to attend graduate school to get my Doctorate of Occupational Therapy at Washington University in St. Louis starting August 2021.

Volunteer Area:

PMR

Lifetime Hours: 98

“Noah is amazing! He volunteers every Wed. and has a great attitude. He is very willing & grateful to provide our patients with the assist the therapists need to challenge them. He is very attentive to details & the gym is immaculate when he is here. He is a self-starter who keeps himself busy. He loves & excels with patient care! We are grateful for his help!”

~Laura Decker, PT

\*Our Volunteer Spotlights are randomly chosen. All you have to do is volunteer in the previous month, and your name could be randomly selected!
