

Volunteer Spotlight

July 2016

Emily Kearns

Lifetime Hours: 1,142
Volunteer Area: Lab Assistant
1 year of service to volunteering

Why do you choose to volunteer at St. Luke's?

Volunteering here is something to keep me busy!

What do you find most rewarding about your volunteer assignment?

I like the nice people in the lab. I am very good at organizing and filing. Sometimes I have lunch with Lisa or other associates & volunteers. I have almost 100% accuracy on filing the slides.

What do you get to do in the lab?

I help think up the "Thought for the day" and random facts for the boards. My main job is to take all the slides that the lab might use, and file them in order. I make sure they are done almost 100% accurately and this helps save the lab time when they are ordering a specific slide and trying to find it!

What do you do outside of St. Luke's?

I collect trading cards like yogi-Oh, Pokémon, and My Little Pony. I also like to draw pictures and decorate cakes. I recently decorated the project search graduation cakes!

Our Volunteer Spotlights are randomly chosen. All you have to do is volunteer in that month, and your name could be randomly selected! Winners will receive a \$5 Gift Certificate and be displayed in the cafeteria and Volunteer Services Hallways.
