

2022 Advanced Cardiovascular Life Support & Basic Life Support Renewal Course

Purpose and Intended Audience

To enable physicians, nurses, and paramedic personnel to improve outcomes for adult patients of cardiac arrest and other cardiopulmonary emergencies through early recognition and interventions by high-performance teams.

Objectives/Learner Outcomes

Upon completion of the course, the participant will be able to:

1. Define systems of care.
2. Apply the BLS, Primary and Secondary Assessments sequence for a systematic evaluation of adult patients.
3. Discuss how the use of a rapid response team (RRT) may improve patient outcomes.
4. Recognize and manage patients experiencing Acute Coronary Syndrome and Acute Stroke, including disposition.
5. Demonstrate proficiency in providing BLS care, including prioritizing chest compressions and integrating automated external defibrillator (AED) use for both adult and children
6. Recognize and managed respiratory and/or cardiac arrest until termination of resuscitation or transfer of care, including immediate post-cardiac arrest care.
7. Demonstrate effective communication as a member or leader of a resuscitation team.
8. Complete the BLS and ACLS written exams with a score of 84% or higher.

Pre-requisites

Successful completion of the Precourse Self-Assessment with a score of 70% or higher.
