

Basic Life Support Provider Course

January – June 2022

Purpose and Intended Audience

To enable healthcare providers in the lifesaving skills of cardiopulmonary resuscitation (CPR) for all ages (including ventilation with a barrier device, a bag-mask device, and oxygen), use of an automated external defibrillator (AED), and relief of foreign-body airway obstruction (FBAO) defined by the American Heart Association (AHA). This course can be utilized for renewal training or for providers taking BLS for the first time.

Objectives/Learner Outcomes

Upon completion of the course, the participant will be able to:

1. Describe the importance of high-quality CPR and early defibrillation.
2. Describe the steps in the chain of survival.
3. Successfully complete BLS skills on an Adult, Child, and Infant as well as choking and AED use.
4. Demonstrate effective use of a barrier device and a bag-mask device.
5. Completed the written exam with a score of 84% or higher.

Questions: Email DM_CTC@unitypoint.org

The American Heart Association strongly promotes knowledge and proficiency in all AHA courses and has developed instructional materials for this purpose. Use of these materials in an educational course does not represent course sponsorship by the AHA. Any fees charged for such a course, except for a portion of fees needed for AHA course materials, do not represent income to the AHA.
