

## We're Moving This Month!

**New Location Opens Monday, August 24, 2015**

On August 24, 2015, the Ankeny location of Methodist Occupational Health & Wellness will be open in a new location. Since 2011, our practice has been located within the UnityPoint Clinic family and internal medicine building on the Northeast corner of State Street and Oralabor Road. In order to better serve our clients and to offer expanded services, we will be relocating to the opposite corner of that intersection.

Our clinic at **1810 SW White Birch Circle, Suite 111**, will be dedicated to occupational medicine and wholly focused on employer-based healthcare. We will continue to offer the same scope of services for our Ankeny-area clients, including post offer physicals, DOT physicals and drug screens, and acute injury care. Additionally, we will provide on-site radiology services. Soon after opening we will expand our services to include Physical Capacity Profile testing and limited work comp-related physical therapy.

We have truly appreciated the opportunity to serve Ankeny and NE Des Moines from our clinic for the past four years, and we are looking forward to building those relationships even further in our new space. For questions about our new clinic, please call 515-241-2223 or email [steven.krob@unitypoint.org](mailto:steven.krob@unitypoint.org).

**Please Note:** Our current office will close at 12:00 p.m. on Friday, August 21, to allow us to move equipment to our new location. Our clinic at 1810 SW White Birch Circle, Suite 111, will be open for business at 8:00 a.m. on Monday, August 24, 2015.
