Throckmorton Surgical Society Symposium on Surgical Oncology

Co-sponsored by:
Throckmorton Surgical Society
Department of Surgery Education
Iowa Methodist Medical Center

Friday, May 2, 2014
This symposium is designed to provide the practicing general surgeon with current information regarding the latest advances and treatments in surgical oncology.

At the conclusion of the program each participant should be able to:

- Discuss the fundamental principles of oncologic surgery
- Understand the palliative surgical options for the oncology patient
- Relate the use of regional limb perfusion for treatment of malignant melanoma
- Understand the fundamentals of HIPEC and the associated outcomes of its use
- Describe a modern approach to the surgical treatment of a patient with metastatic colorectal in the liver
- Describe advanced techniques in liver surgery
- Understand current decisions in surgery for pancreatic cancer and cystic neoplasms of the pancreas
- Discuss management of hematologic splenic disorders
- Describe considerations related to treatment of foregut malignancy

I plan to attend the following:

- Surgical Oncology Symposium & luncheon included
- My spouse/guest will attend Spouse/Guest luncheon

Name of guest/spouse:

Conference Fees

- Members—Dues Paid - luncheon included: No charge
