Pierce Street (24th Street to 29th Street) Reconstruction Project Update

The City of Sioux City Engineering Division announces upcoming traffic changes in conjunction with the Pierce Street (24th Street to 29th Street) Reconstruction Project. Starting Tuesday, July 17th, weather dependent, Pierce Street will be closed north of 27th Street. The 29th Street and Pierce Street intersection will re-open to traffic and UnityPoint Health - St. Luke's valet and parking access will be maintained from the north. A full detour will be posted from 27th Street to Nebraska Street to 29th Street. This closure will allow the contractor to complete the final stage of reconstruction for the project, with final completion anticipated in August 2018.

When complete, the Pierce Street Reconstruction Project will reconstruct the roadway and sidewalks from 24th Street to 29th Street. City utilities, such as sewer, water, storm sewer, and lighting will also be replaced. In addition, the project includes a realignment of Pierce Street north of 27th Street. Coordination with UnityPoint Health allowed for campus improvements from 27th Street to 29th Street including landscaping, lighting, and additional parking lot paving.

Additional project information can be viewed at: www.siox-city.org/PierceStreetReconstruction
