What are COVID-19 symptoms?

COVID-19 is a disease caused by a new coronavirus. Symptoms of COVID-19 may include fever, cough, shortness of breath, chills, muscle pain, sore throat or new loss of taste or smell.

What should I do if I have symptoms?

If you have symptoms of COVID-19, please call your doctor's office or the UnityPoint Health 24-hour hotline. Proper screening and assessment will occur over the phone, and you'll then be advised on next steps. These precautions are important, as they help protect others from being exposed to the virus.
