Purpose
As an employer of choice, we are investing in our employees' talent and development. Valuable information, updates, and evidence-based practice related to therapy will be shared to provide the best outcome for every patient every time. Participants will have the opportunity to focus on these elements:
- Collaborate across departments, facilities, business units, regions and outside partners.
- Be accountable for our individual actions and our team performance.
- Commit to the best outcomes and highest quality.
- We work to be employers where staff want a career and patients want to have their care.
- Create partnerships that improve care delivery in our communities.

Target Audience PT, OT, SLP, COTA, PTA, and nurses - working directly with high-risk patients in a variety of settings

Learning Objectives

After this conference, participants will be able to

- Recognize Parkinson’s treatment resources, patient education, and quality of life issues in chronic disease management.
- Discuss the patient-centered experience, beyond clinical outcomes, in caring for those with Parkinson’s.
- Describe condition sets that may benefit from alternative and augmentative communication and supportive therapy.
- Compare innovative treatment techniques for impaired functional mobility of hip or knee joints.
- Focus on the continuity of care between acute care treatment options to rehabilitation of the patient with cerebrovascular accident.
- Examine quality of life issues related to the care of patients and families with Alzheimer’s and appropriate communication or responses to dementia-related behaviors.
- Differentiate the therapeutic and adverse effects of medications used for COPD, heart failure, diabetes, depression/anxiety, and dementia which may impact the therapy plan in the Home Care Setting.
- Consider possible side effects of medications and their potential to impact rehabilitation activities and patient safety.
- Describe evidence-based standardized testing applied to different settings
- Summarize basic therapeutic kinesio taping techniques for a variety of conditions.
Learning Objectives continued

- Explore pulmonary rehabilitation resources, treatments, and patient education to optimize coordination and continuity with therapy services.
- Define ethical behaviors and identify different theories to help make ethical decisions. Identify the principles of the established code of ethics for OT, PT, and SLP. Apply ethical decision-making practices in case studies and simulated clinical situations.

Continuing Education Credit

11.1 contact hours (1.11 CEU) will be offered by Iowa Board of Nursing Approved Provider #308, UnityPoint at Home, for attending both days, or individually 7.7 hours (0.77 CEU) for Saturday and 3.4 hours (0.34) for Sunday. The Iowa and South Dakota Bureaus of Professional Licensure for Physical Therapy, Occupational Therapy, Speech Pathology and Audiology, and Recreational Therapy do not pre-approve continuing education. It is the licensee’s responsibility to determine if the continuing education programs they attend meet the requirements of their professional licensure board. Illinois Occupation Therapy/Physical Therapy: 7.7 hours for Saturday and 3.4 hours for Sunday continuing education hours will be awarded at the conclusion of the program by UnityPoint Health – Trinity. This program is approved for 11 contact hours for attendance at both days, WPTA course #16521. No partial credit will be offered for either day. It is recommended by the Bureau of Professional licensure that you maintain certificates of completion that include the program or course title, date(s), contact hours, sponsor and licensee’s name for 4 years.
