

Starting Therapy with Botulinum Toxins

Your doctor would like you to start treatment. Now what?

Your doctor's office will work closely with the UnityPoint at Home Specialty Pharmacy and your insurance company to get the medication ready for you.

Insurance Check

Our pharmacy will work with your insurance company to determine your coverage. Many insurance companies will ask for information from your doctor before it will be covered. The length of this process may vary. Our pharmacy will ask for all of your insurance cards. Medical use of Botulinum Toxins including Botox[®], Dysport[®], Myobloc[®] or Xeomin[®] may be covered by your medical benefits or your pharmacy benefits. We will help find the lowest cost for you.

Phone Call

Our specialty pharmacy will contact you. During this phone call, we will:

- Obtain your medical and pharmacy insurance information
- Confirm your list of medications and ask about allergies
- Confirm the date of your appointment
- Confirm the date we will ship the medication to your doctor
- Discuss the cost of the medication
- Answer any questions you may have

After this initial phone call, we will call you if there are any changes in your treatment or insurance.

Each refill will be delivered directly to your doctor's office. The medication will be ready for you before your appointment.

Contact us with questions at (877) 804-2713. UnityPoint at Home Specialty Pharmacy staff is ready to help.
