

Your Provider Wants to Start Lupron[®]

Your doctor would like you to start treatment. Now what?

Your doctor's office will work closely with the UnityPoint at Home Specialty Pharmacy and your insurance company to get the medication ready for you.

Insurance Check

Our pharmacy will work with your insurance company to determine your coverage. In order to process this medication, our pharmacy will ask for all of your insurance cards. Many insurance companies will ask for more information from your doctor before approving use of this medication. The length of this process may vary.

Phone Call

Our specialty pharmacy will contact you. During this phone call, we will:

- Obtain your medical and pharmacy insurance information
- Confirm your list of medications and ask about allergies
- Discuss the cost of the medication
- Answer any questions you may have

After this initial phone call, we will call you routinely or if there are any changes in your treatment or insurance.

Cost Information

Due to the high cost of these medications, our staff will work hard to help reduce your monthly cost for them.

Receiving Treatment

It is very important to keep your appointments and receive your medicine as directed by your provider and continue your diet and lifestyle changes in order to have the best result. Your doctor's office will call you to arrange follow up visits and tests to monitor your care.

Each refill will be delivered directly to your location of choice. Our pharmacy will call you prior to all shipments of the medication to make sure you are ready for your next refill.

Contact us with questions at (877) 804-2713. UnityPoint at Home Specialty Pharmacy staff is ready to help.
