

Aggression and Violence Are Never OK.

Providing you outstanding health care is why we exist. But we need your help to provide the best possible patient experience.

Should you choose to

- Verbally abuse our team members
- Physically abuse our team members
- Assault our team members
- Steal and/or damage our property

We may

- Call public safety
- Call law enforcement
- Pursue criminal charges to the fullest extent of the law

No member of our team should EVER fear for their safety at work.

Administration supports team members in pressing charges for aggressive behavior they encounter while caring for patients.
