Referrals to Center for Perinatal Care

• There are multiple types of referrals that can be requested at the Center For Perinatal Care.
  - MFM consultation
  - Diabetes nutrition education
  - Post dates testing
  - Diabetes education
  - Genetics
  - Ultrasound

• All referrals are requested on 1 of 2 different forms:
  - Perinatal Clinic Referral
  - Ultrasound/Genetics Referral
MFM consultation

1. Fill out form
2. Fax all patient records to the Center for Perinatal Care (417-6364)
3. If the patient needs to be seen within 3 days, please specify it and call the Center for Perinatal Care (417-6097)
4. Specify transfer of care or co-management
5. Genetics for AMA or history of a genetic problem
6. Diabetic educator/nutrition for diabetics without an MFM consult
7. After the form is faxed the perinatal nurse will call the patient to set up the appointment(s). Please inform the patient to call the Center for Perinatal Care if she has not received a call within 3 business days.
Post dates testing

1. Fill out form
2. Check NST/BPP box
3. Fax all patient records to the Center for Perinatal Care (417-6364 clinic fax)
4. The perinatal nurse will call the patient to schedule the appointments.
Ultrasound Evaluation Only

1. Fill out form
2. Fax form and records to the Center for Perinatal Care (417-5928 ultrasound fax)
3. Have the patient call to schedule the appointment within 3 days
4. If the patient needs to have an urgent ultrasound (within 3 days), please call the Center for Perinatal Care to schedule (417-6261)
