

At UnityPoint Health®, our commitment to provide you with quality care and service does not end when you are discharged from the hospital. For patients who would benefit from care in a Skilled Nursing Facility (“SNF” for short), we have developed a network of preferred providers. These providers are working closely with UnityPoint Health Hospitals and Physicians to deliver coordinated care that leads to better patient outcomes.

We want to make sure that the care plan that started in the hospital continues to the Skilled Nursing Facility. Our goals are to help you get the care you need and return you to your home.

Your Skilled Nursing Facility will:

- Manage your day to day medical needs.
- Continue your plan of care through communication and coordination with the SNF’s team of physicians, nurses and therapists, who have different training and skills to help you recover.
- Teach you about your condition, including the medicines you need and the steps needed for recovery.
- Communicate with the physician who was caring for you when you were admitted to the SNF, as well as with any physician who will care for you after you leave the nursing facility.

The Skilled Nursing Facility network is one of the many care coordination services designed to provide quality care after your stay in the hospital.

Preferred Facilities in the Central Illinois Region

These are the local places where your care may be coordinated by a UnityPoint Health physician, working with our Post-Acute provider team at the Skilled Nursing Facility.
